ZELAZOSKI

Wood Products, Inc.

Zelazoski Wood Products, Inc. began as Thos. Zelazoski Mfg. Co. in 1924 in an old blacksmith shop in the area of 4th Ave and Superior Street. In 1928 we began making wooden blocks for the brush and broom industry, which has been our mainstay ever since. We moved to 10th and Edison Street in the 1940s and into our current facility in 1997. Over the years we have tried to even out the peaks and valleys of the brush block business by making other products. We have made crutches, cutlery racks, fishing lures, just about anything out of wood.

The company was incorporated by Tom and his two sons, Clarence and Bernard, in 1958 under the name of Zelazoski Wood Products, Inc. and continued its slow, steady growth. By the early 1990s, it became impractical to put any more additions on the old facility. A new structure was built and opened in the spring of 1997. This allowed all production to come together under one roof as well as expand warehousing and customer services.

Today, Zelazoski Wood Products is owned by three of Tom's grandsons who are active in the business. Brush and broom blocks continue to be some the main products manufactured as well as grill scrapers, animal grooming tools, fishing lure bodies and occasionally some farm related items. Northern hardwoods are the main raw material used but softwoods, plywood, exotic woods, and even plastics can be utilized to manufacture parts according to the customers' specifications.
